

NEW PRECISION RUBBER PREFORMER & NEW ROTATING & COOLING CONVEYOR

AFFORDABLE & IN STOCK HERE IN OHIO

Model # JYZ60-GMI

Model # LSX1050-GMI

- Accuracy.....±1%
- Barrel Capacity @ 10" Ø.....60 Lt (135 lb)
- Blank Weight.....0.3-2000 Gr
- Output Per Hour.....1800 Lb (800Kg)
- Weighing Scale Capacity.....0-1500 Gr
- Pressure.....3000 PSI (210 Bar)
- Cutter Speed (Variable).....23-300 RPM
- PLC & Color Touch Screen
- 1000+ Set-Up Storage On PLC Database Memory
- Weight Control Loop Feedback & Calibration
- Hard Chromed Barrel (10" Ø)
- Single Rotary Knife • Variable Speed Cutter
- Water Barrel Heating • Enclosed Vacuum
- Non-Stick PU Conveyor Belt
- Stainless Steel Safety Cage
- 480V/3PH/60HZ/21KW
- Dimensions (Weight): 199"Lx49"Wx65"H (8800lbs)
- Conveyor Speed.....8 m/min (26 FPM)
- Vibrating Motors.....2 X 0.75KW (1HP)
- Cooling Fan Motor.....4KW (5HP)
- Cooling Water Pump.....0.25KW (1/3HP)
- Distance Travel.....36 m (120')
- Flight Width.....245 mm (10")
- Flight Pitch.....110 mm (4.33")
- Stainless Steel Construction
- Forced Air & Water Cooling (Closed Loop)
- Variable Speed Conveyor
- 480V/3PH/60HZ/5.5KW
- Dimensions (Weight): 59"Lx90"Wx102"H (4000lbs)

1 YEAR WARRANTY, PROMPT DELIVERIES, 24 HR SERVICE & TECHNICAL SUPPORT, LARGE INVENTORY OF SPARE PARTS, ALL BACKED BY GMI QUALITY & POST SALES SERVICE

ADVANTAGES OF GMI'S PRECISION PREFORMERS

- **QUICKER RETURN ON INVESTMENT**
Relatively low initial cost compared to other preformer brands and preforming methods, plus significant savings in labor and material costs.
- **HIGHER QUALITY PRODUCTS**
Repeatability and accurate preforms from batch to batch ensures higher product quality.
- **LOWER OPERATING COSTS**
Machine can be easily run by one operator.
- **FEWER REJECTS**
Due to precise & accurate preforms that eliminate mold under and over fills.
- **VERSATILITY**
A wide range of preforming materials, such as silicone, viton, EPDM, natural rubber, SBR, butyl, and more...
- **BETTER PREFORMS**
One piece preforms with better profiles to eliminate joints, flash, etc.
- **LESS WASTE**
No off-cuts or trimmings typical with other production methods.
- **LESS CONTAMINATION**
Many available meshes/screens to remove impurities and contamination.
- **ENERGY SAVINGS**
Hydraulic ram has a great power to output ratio.
- **EASY CLEANING**
Open chromed barrel plus stainless steel cage allow for easier cleaning when changing materials.
- **SIMPLE INSTALLATION & OPERATION**
Preformer is simple to operate and is fully tested before leaving our plant. It is also shipped complete to facilitate installation.
- **LOWER MAINTENANCE**
Heavy duty machine built to last and with easy access to electric and hydraulic components; only requires occasional inspection and service.
- **“NON RUST” & “NON STICKING”**
Chromed barrel, PU belt, stainless steel cage and cooling conveyor results in less sticking and less contamination derived from rust and corrosion.
- **1 YEAR WARRANTY**
24 HR SERVICE & TECHNICAL SUPPORT. SPARE PARTS IN STOCK.
